Catalogue Copy

The filter is at the core of purifying your air and replacing it is essential for optimal air purifier performance. This 2-in-1 filter combines a carbon prefilter for capturing large particles with a HEPA type filter for trapping small particles.

Features and Benefits

- The TruSensÂ combination filter has been engineered to collect microscopic particles, allergens and volatile organic components (VOC#s), and odourous gases
- 360 degree filtration draws in air from all directions
- Collects pollutants such as basic household odours and airborne allergens
- Carbon prefilter captures odours and certain gasses, offering the first level of defense
- HEPA Type filter removes pollutants as small as 0.3 microns
- Change indicator light is displayed on purifier when filters need to be replaced
- Compatible with TruSens Z1000 Air Purifier
