# TruSens™

EXPERIENCE THE DIFFERENCE  
air purifiers reimagined

## Senses pollutants

Clean air should be everywhere, not just near the purifier. Placed across the room, SensorPod™ measures pollutants away from the purifier, then communicates with the purifier to ensure the full room benefits from purified air.

## Clean air everywhere

PureDirect™ Proprietary technology splits clean air into two streams. It delivers purified air comfortably and efficiently throughout the room.

## Responds to your air

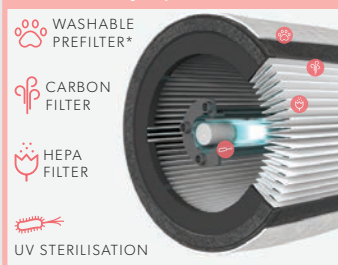

SensorPod™ air quality readings are displayed on the illuminated disc. Know when your air is good, moderate or poor and have the peace of mind that your purifier responds accordingly.

### EPA AIR QUALITY INDEX

- 100+ : POOR
- 50 - 100 : MODERATE
- 0 - 50 : GOOD

## Captures and destroys pollutants\*

360 degree DuPont™ filtration captures pollutants such as allergens, VOC gases and microscopic particles. UltraViolet sterilisation destroys germs and viruses that can build up on the filter, preventing re-circulation of live germs.

\*Z-200 and Z-3000 only

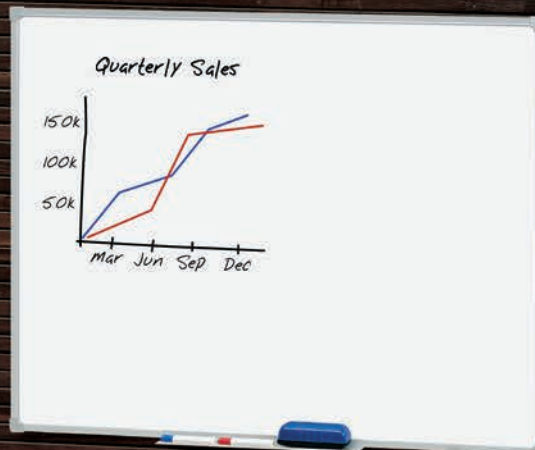

\*In laboratory testing, UV lamp killed >98.8% of *Staphylococcus aureus* and *Pseudomonas aeruginosa*.
